Wentworth Senior Living
Additional Service Provider Network

OUR RESIDENTS HAVE ACCESS TO ALL THESE PROVIDERS ON A REGULAR BASIS

Medical Director: Corey Piper, APRN

Corey Piper collaborates with our Administrative team to evaluate and approve resident care policies. He is available to serve as Primary Care physician if a resident does not have a pre-established primary care doctor or can no longer attend appointments at a physician's office. He rounds at WSL every other week. He or his associate, Dr. John Wheeler, are available by phone for nursing consultation 24/7.

Podiatrist: HealthDrive

Dr. Daphne Roberts is a licensed board-certified doctor of Podiatric medicine. She provides in-house, Medicare approved, routine nail care to those residents in need of this service on a bi-monthly basis. She is able to advise if there are conditions or concerns that would require more in-depth services at an off-site location.

Audiologist: Dr. Mark Fodero

Mark Fodero practices at New Hampshire Hearing and Balance in Greenland, NH. He provides hearing evaluations and solutions to residents monthly as needed.

Geriatric Psychiatrist: Behavior Health Solutions

Behavior Health Solutions comes every other week for routine and follow up counseling for residents requesting or requiring behavioral health support. In between visits they have various covering providers who would be available by phone 24/7 to assist WSL nurses with emergent situations.

Dental Hygienist: Lynn Peters, RDH

Dental Hygienist Lynn Peters offers dental services for residents of WSL on a quarterly basis. Lynn provides dental cleanings and gum evaluations for residents right in their apartment.

Dermatology: Kenna Finlayson, APRN

Kenna Finlayson is a Nurse Practitioner at OnSite Dermatology and is available to see residents with skin concerns during regularly scheduled visits to WSL, the first Friday every month. She is able to provide routine skin checks, assist with minor skin concerns and is able to advise if skin issues would require a more complex off-site assessment.

Nutrition: Glendale Senior Dining

WSL's dining services are provided by Glendale Senior Dining Services, whose Registered Dietician oversees the development of WSL's menus to ensure that all aspects of the dining experience are nutritionally balanced. Residents who have questions about how our menu meets their dietary requirements may schedule a meeting with the dining services director.

Physical, Occupational, and Speech Therapy

Physical, Occupational and Speech therapists are available to come on-site for residents who would benefit from rehabilitation but may not want to have an inpatient stay at a rehabilitation facility. Therapists utilize WSL's therapeutic wellness equipment to help residents achieve maximum benefit. Referrals are made through a primary care provider.

Wound Care

WSL refers out to The Wound Care Center at Portsmouth Regional Hospital and has LPN's and RN's on staff who can help manage wounds in-between appointments at the Center.

Social Services

WSL has a good network of practitioners in the Portsmouth area and can refer out to an offsite provider.

Pharmacy

WSL is contracted with a pharmacy to provide prescriptions delivered right to the facility daily. Medication orders are filled quickly with daily on-site delivery and an emergency supply of the most commonly prescribed medications are kept on-site at WSL.

Laboratory Services

Elliot Hospital provides lab services on site every Monday, Wednesday and Thursday. They are available for urgent pick-up or lab draws if your provider requires testing on other days.

Mobile Services

Trident provides mobile services that are able to conduct on-site comprehensive services including diagnostic radiology, cardiology and ultrasound services right in a resident's apartment with same day results.

Hospice Care Services

WSL works in collaboration with a variety of hospice agencies to provide physical, spiritual, and emotional support to residents and their loved ones during end of life care.
